

MNDOT Highway 65 Improvement Project

MNDOT will improve more than 19 miles of Hwy 65 between Anoka County Road 10 in Spring Lake Park and 237th Avenue in East Bethel beginning in April. In addition to 16.5 miles of new pavement, the project will include full-depth pavement reconstruction to correct settlement areas. Crews also will replace bridges with box culverts at Coon Creek and south of Viking Boulevard and north of Constance Boulevard. Additional work will install high-tension cable median barrier between Bunker Lake Boulevard and 237th Avenue, improve drainage, and install curb ramp and sidewalk improvements at several intersections along with traffic signal replacement at 85th Avenue and 93rd Avenue in Blaine.

There also will be four full weekend closures with detours, a full month-long closure between Constance Boulevard and Viking Boulevard. These closures will detour traffic through the City of Oak Grove. Residents can expect increased traffic and delays during closures when northbound traffic is diverted off TH 65 onto County Roads at Constance Boulevard NW to Round Lake Boulevard NW to Viking Boulevard NW to Cedar Drive to 221st Avenue NW as shown below.
